Dear Ken,

I just wanted to let you know how much we all enjoyed – and learned from – the Cool Science program you did here. I felt confident beforehand that our teens and 'tweens would like your program, but was totally thrilled to see how much they LOVED it as you lead them through the wonders of how matter changes! They were totally involved and obviously enthusiastic participants, which is what we love to see. The parents and younger siblings who stayed to enjoy the show were very enthusiastic as well.

We do hope you will visit us again. You really make science fun.

Best regards,

Pamela Brooks  
Head of Reference and Adult Services
